

PRESS RELEASE - 04/11/22

Chocolatier Elisabeth and whisky distillery The Belgian Owl create unique combination of chocolate and whisky

Chocolatier Elisabeth has a tradition of partnering with local artisans to create exclusive products. This time she partnered with Belgian whisky distillery The Belgian Owl and liqueur praline specialist Dirk Naert. This collaboration resulted in whisky pearls, a unique combination of single cask whisky in artisanal pralines.

About the product

The whisky in these whisky pearls is 'Cask Strength', a single cask with an alcohol content of 71%. This exclusive whisky was carefully coated with a fine layer of artisanal black chocolate by Dirk Naert. The result is a crunchy praline filled with a 'shot' of whisky that provides a unique flavour explosion. The round gift box with 18 whisky pearls is available exclusively at Elisabeth Chocolatier.

About The Belgian Owl

The Belgian Owl is a Belgian whisky distillery producing Hesbaye whisky of the highest quality. The barley comes from 29 farmers from the Hesbaye region, with whom The Belgian Owl has a Fairtrade agreement. To stay as close to the old traditions as possible, two authentic Scotch stills were brought over from the former Caperdonich distillery in Speyside, Scotland. Due to its superior flavour, The Belgian Owl's whiskies have already won several (international) awards.
